**3CSN Summer 2021 multi-part Design Labs created by and for California Community College Educators**

Join the [California Community College Success Network](#) (3CSN) for their ongoing workshop series that includes but is not limited to:

**We Can Do This: learning & teaching online, through crisis, & beyond**
Teaching online, thinking about what to bring forward as we transition back to in-person instruction? With other faculty colleagues, focus on effective online pedagogy and student-centered active learning, and directly apply your learning and metacognitive reflections to redesign elements of your fall courses.

**Building a Student-Centered Canvas Course**
In this five-part design lab, you will work on designing an accessible, student-centered course, in community with educators across the state, considering backward design, rich content editor, accessibility, syllabus, pages, modules, and more.

---

**COMMUNITY COLLEGE CORNER**

**Faculty Diversification Fellowship**
This [Fellowship](#) will provide post-baccalaureate students interested in teaching in a 2-year college with an opportunity to participate in a Faculty Fellowship Program. This program will provide candidates a mentorship collaboration with a Bakersfield College faculty.

---

**Community College Teaching Certification Courses**
The Community College Teaching Certificate is a graduate-level program. The program consists of 2 academic courses followed by a teaching internship. [Learn more](#).
Looking to get more experience and training in Online Teaching? Get certified for the California Community College system today by participating in these upcoming courses and workshops! Also check out the Cultural Curriculum Audit (CCA).

The California Virtual Campus (CVC)'s summer course schedule is also open for registration! Several courses are being offered.

WORKING TOWARDS STUDENT EQUITY IN HIGHER ED

Celebrating LGBTQIA+ Pride Month

Last month celebrated the shared struggles of the LGBTQIA+ community. While often an invisible demographic, it is important to reflect on how we can best support and celebrate our LGBTQIA+ students and colleagues. We have compiled a few references below that may interest you:

Effect of a Place-Based Learning Community on Belonging, Persistence, and Equity Gaps for First-Year STEM Students

"American higher education is fraught with inequity. College completion rates in the US continue to be tied disproportionately to race and ethnicity, socioeconomic status, and family history in higher education. This study examines the impact of participation in a place-based learning community on student persistence, equity gaps, and three of their broadly recognized predictors: students’ sense of social belonging, academic skills and attitudes, and academic performance in gateway courses."

A Systematic Investigation of Noncontent Instructor Talk in an Introductory Biology Course

"Instructors create classroom environments that have the potential to impact learning by affecting student motivation, resistance, and self-efficacy. However, despite the critical importance of the learning environment in increasing conceptual understanding, little research has investigated what instructors say and do to create learning environments in college biology classrooms. The Instructor Talk framework is a novel research variable that could yield insights into instructor effectiveness, origins of student resistance, and methods for overcoming stereotype threat. Additionally, it holds promise in professional development settings to assist instructors in reflecting on the learning environments they create."
Mispronouncing a student's name can have negative consequences. Check out this tool to help you learn students' names.

What's Next for Online Teaching and Learning in Higher Education?

Sustaining the gains and building on the good outcomes associated with higher ed's response to COVID-19 can enhance the quality and distribution of online teaching and learning, build up resources and infrastructure, and ultimately save institutions valuable time and money.

FACULTY LIFE

Safely Reopening California

Last week, the state of California moved to fully reopen in light of increased vaccination rates and reduced numbers of new and suspected cases of COVID-19 in our communities. California has fully reopened its economy. This means no more physical distancing, no capacity limits, no county tiers, and relaxed mask guidance. Click to learn more.
Submission Deadline: October 1, 2021

**LEARN MORE ABOUT WHAT WE DO**

The California Regional Collaborative is a regional network of 2- and 4- year institutions, working together towards improving overall outcomes in STEM higher education, and in particular for students and faculty from underrepresented groups.

We work with graduate students and other potential “future faculty” from groups that are underrepresented in academia to address the need to increase diversity in our regional colleges to better reflect the diversity of our students. These trainees will support teaching efforts, education research initiatives, and curriculum development needs in collaboration with their 2- year internship site. In addition, regional programming such as webinars, symposiums, conferences, panels, and other events supports both current faculty along with future faculty. This will be coupled with an assessment plan to understand regional needs and assess the impact of our work.

The California Regional Collaborative is part of a network of collaboratives, national organizations, and initiatives participating in the NSF INCLUDES Aspire Alliance.
