COLLABORATIVE

Happy October!

ANNOUNCEMENTS

Exploring Careers in Teaching at a Community College Webinar Series

The Center for the Integration of Research, Teaching, and Learning (CIRTL), a national network that helps train and prepare future faculty for careers in teaching, is hosting a special webinar event. In this three-part series, you will learn from panels of current community college faculty about the joys and challenges of teaching at a community college, the broad diversity of students in their courses, how that diversity enhances learning, and the ins/outs of finding a full-time teaching position at a community college. The panelists will take questions from future faculty throughout the presentation. This series is organized through the NSF INCLUDES Aspire Alliance, as part of the Regional Collaborative initiatives.

- [Part I: Introduction to Teaching at a Community College](#) - October 5th, 10 am PST
- [Part II: Getting Hired at a Community College](#) - November 2nd, 10 am PST
- [Part III: Equity, Diversity, and Inclusive Teaching](#) - December 7th, 10 am PST

Learn more here

Register with the CIRTL network through your affiliation with UCLA and the California Regional Collaborative.

Fall Regional Summit

October 8 starting at 9:30 am

- Build and sustain community with others in your region
- Engage with student experience and explore ways to foster student engagement, persistence, and empowerment
- Be inspired by student success projects created by 3CSN Design Lab participants in your region
- Consider ways we can sustain our change work to benefit our students, institutions, and the communities we serve

WORKING TOWARDS STUDENT EQUITY IN HIGHER ED

Food for Thought

Respecting gender identity and expression in the classroom creates a culture of inclusion and diversity in education that has indirect benefits to all.

Consider ways in which you can foster a more inclusive environment for your students. Here are some resources to help you do just that.

Resources

- [Seven Ways You Can Foster a More Inclusive LGBTQIA+ Learning Environment](#)
- [Teaching Beyond the Gender Binary in the University Classroom](#)
- [Pronouns Matter](#)
- [Institutions Work To Build Community for LGBTQ Students - Even Virtually](#)

EVENTS

[October 13th - November 25th](#)

The Inclusive STEM Teaching course advances the awareness, self-efficacy, and ability of STEM faculty, postdocs, graduate students, and staff to cultivate inclusive learning environments for all of their students. Participants engage in deep reflection and discussion around topics of equity and inclusion across a variety of institutional contexts. [Registration is open](#) on edX.

3CSN invites you to the Civic Dialogues series sponsored by Bringing Theory into Practice.

The 6-part series features national experts,

scholars, and practitioners sharing and discussing the critical importance of civic engagement along with **educational practices and models** for increasing meaningful engagement on campuses.

If you wish to be added to the California Regional Collaborative mailing list for future newsletters and special announcements, please send your request to aspire.calrc@gmail.com.

LEARN MORE ABOUT WHAT WE DO

ASPIRE
CALIFORNIA REGIONAL COLLABORATIVE

The California Regional Collaborative is a regional network of 2- and 4- year institutions, working together towards improving overall outcomes in STEM higher education, and in particular for students and faculty from underrepresented groups.

We work with graduate students and other potential “future faculty” from groups that are underrepresented in academia to address the need to increase diversity in our regional colleges to better reflect the diversity of our students. These trainees will support teaching efforts, education research initiatives, and curriculum development needs in collaboration with their 2- year internship site. In addition, regional programming such as webinars, symposiums, conferences, panels, and other events supports both current faculty along with

future faculty. This will be coupled with an assessment plan to understand regional needs and assess the impact of our work.

The **California Regional Collaborative** is part of a network of collaboratives, national organizations, and initiatives participating in the NSF INCLUDES Aspire Alliance
